Ue megaboom pairing multiple speakers

The app does not recognise the speaker in iOS 13 After updating to iOS 13, you will need to allow the app to access Bluetooth. To do so, in your iOS Settings, go to your speaker's app settings and turn on the Bluetooth access. In case you have installed the app after the iOS update, you will be prompted with a message requesting Bluetooth access for the app. In this case, just click on "OK" to give access. Connecting your speaker to additional devices Your UE speaker will remember the last eight devices it connected with. Pairing additional devices After you pair the first device, here's how to pair additional devices: Turn the speaker on. Hold down the Bluetooth button until you hear a tone. NOTE: The Bluetooth connection button will blink rapidly, indicating that the speaker is ready for pairing. On your device, go to the Bluetooth menu and scan for devices. Select the name of your speaker from the list of devices. Once paired and connected, you'll hear an audible confirmation from the speaker. Your speaker is now ready to use with the device you added. Reconnecting to a device To reconnect a device to your Ultimate Ears speaker after the initial pairing or after pairing another device: Turn the speaker on On your device, go to the Bluetooth menu and select the name of your speaker from the list of devices. Once reconnected, you'll hear an audible confirmation from the speaker. Your speaker is now ready to use with the device you selected. Pairing/Grouping Speakers Together PartyUp allows you to connect multiple speakers together. To join the party, you'll need to get the BOOM & MEGABOOM by Ultimate Ears App and latest firmware for your speakers first. Check the iOS App Store or Android Play Store for the latest app update. Once you have the latest app, you can update your speaker firmware through the app via OTA (over-the-air). Please ensure that all the speakers that you would like to join the party are up-to-date with the latest firmware. NOTE: If the guest speaker is not set as a public speaker, you will see a message with an extra step before that guest speaker can join the party. The owner of that speaker will need to press the Bluetooth button twice on their speaker. What speakers can group with my speakers? The following speakers can join the party: BOOM BOOM 2 BOOM 3 MEGABOOM MEGABOOM 3 To join the party, you'll need to get the latest and greatest App and firmware for your speakers first. Check the iOS App Store or Android Play Store for the latest app update. Once you have the latest app, you can update your speaker software through the app via OTA (over-the-air). Please ensure that all the speakers that you would like to join the party are up-to-date with the latest firmware. I can't connect to my device If your Bluetooth device won't connect to your Ultimate Ears speaker, try the following: Make sure your speaker is turned on. Make sure your device is paired with your speaker and Bluetooth is active. Place your Bluetooth device closer to the speaker — it might be out of range. Move your Bluetooth device and speaker away from other wireless sources — you could be experiencing interference. Turn your speaker off, and then back on again. If you have multiple speakers, make sure you're connected to the correct one. NOTE: If this is the first time you're pairing a device with your speaker, you don't need to press the Bluetooth connection button. It comes out of the box ready to pair. Music drops out occasionally If you're having trouble with audio distortion or drop-outs on your speaker, try these suggestions: Move the audio source closer — it might be out of the range of your speaker. Move away from other sources of wireless signal (microwave, routers, cordless phones, etc.) — you could be experiencing interference. Make sure your speaker has enough battery power (connect it to a power source with the supplied adapter). Adjust the volume on both the audio source and your speaker. Restart both your speaker and the audio source. Re-pair your device with your speaker. NOTE: If you're streaming audio content from the internet, the issue could be with the internet connection and not your speaker. Setting up the app To set up the app for your speakers: Connect your speaker to your speaker to your smartphone, tablet, or any other device using Bluetooth. For help, see Connecting your speaker to your device. Download the BOOM & MEGABOOM APP from the Google Play store or the App Store. Once the app is installed, open your app. When the app is open, the first screen you will see is the screen with your speaker name, speaker image, the features available for your speaker, and access to speaker settings. You are now ready to use the app to take advantage of all the features of your speaker. One Touch To Your Playlists — BOOM 3 and MEGABOOM 3 only On the first screen of the app (see step 3 above), you will see an action at the bottom to Get Started with One Touch To Your Playlist. The setup will allow you to choose playlists to directly access from the Magic Button of your speaker. Read the tutorial and follow the on-screen instructions to select your playlist from Apple Music (iOS only) or Deezer premium (Android Only). There is no limit to the number of playlists you can select. Once setup is complete, you are now ready to access your selected playlists from the Magic Button of your speaker. NOTE: To access your playlist from the Magic Button of your speaker, please make sure that you've successfully completed setup of your playlists and that the app remains running and has access to the internet. App features The BOOM & MEGABOOM app by Ultimate Ears has everything you need to get the most out of your Ultimate Ears speaker. From #PartyUp to customizable EQ, unlock even more awesome ways to use your BOOM and MEGABOOM speakers. One App: Use one app to access speaker features for all BOOM and MEGABOOM speakers. Works with BOOM, BOOM 2, BOOM 3, MEGABOOM and MEGABOOM 3. One Touch To Your Playlists: BOOM 3 and MEGABOOM 3 only. Follow the on-screen instructions to select your playlist from Apple Music (iOS only) or Deezer premium (Android Only). Remote On/Off: You'd never walk all the way to your TV to turn it on and you shouldn't have to with your wireless speaker either. Use the app to turn your speaker on/off from afar. Alarms: Don't be late again. Choose your favorite music to wake up to. PartyUp: Pair up to 150 speakers for the ultimate sound experience. You can pair any BOOM or MEGABOOM together. To pair your speakers together, every speaker must be updated with the latest speaker Firmware (check the app to ensure your speaker has the latest firmware). EQ: You Control the Sound: Want to bump up the bass for your next party? Customize your beats in the app. You control the atmosphere with the recommended presets or customize the EQ to your listening preferences Speaker updates: When new software is available for your speaker, a simple tap in the app updates your speaker with the latest features in no time. Your speaker keeps getting better with the in-app updates. Much more: Personalize your speaker's name and customize EQ preferences. For BOOM 3 and MEGABOOM 3 preset Magic Button playlists. New BOOM and MEGABOOM app The new BOOM & MEGABOOM app by Ultimate Ears has everything you need to get the most out of your Ultimate Ears speaker. From #PartyUp to customizable EQ, unlock even more awesome ways to use your BOOM and MEGABOOM speakers. Remote On/Off: You'd never walk all the way to your TV to turn it on and you shouldn't have to with your wireless speaker either. Use the app to turn your speaker on/off from afar. PartyUp: Pair up to 150 speakers for the ultimate sound experience. You can pair any BOOM or MEGABOOM together. To pair your speakers together, every speaker must be updated with the latest speaker Firmware (check the app to ensure your speaker has the latest Firmware). Tap on the PartyUp icon on the tab bar to get your party started. Level up the party by connecting as many Ultimate Ears speakers as you can handle! You'll find your available speakers in the drawer - simply drag & drop onto the screen and get ready to turn up. Touch each speaker to see its name and make sure it's the right one. When someone's ready to go, you can drag their speaker back to the drawer and it's instantly out of your party and ready for something else. Or you can go old school and just turn the speaker off. It's up to you. Pro Tip: You can Party Up with: BOOM, BOOM 2, BOOM 3, MEGABOOM and MEGABOOM 3. Just make sure each speaker is updated to the latest and greatest firmware, otherwise, they won't be able to join the party and, really, no one wants to be left out. EQ: You Control the Sound: Want to bump up the bass for your next party? Customize your audio settings in the app. You control the atmosphere with the recommended presets or customize the EQ to your listening preferences. One Touch To Your Playlist: You can also use the magic button to directly access your playlists from select streaming music providers. To use this feature, you must set it up in the BOOM & MEGABOOM app (see Setting up the app): LONG PRESS TO LAUNCH PLAYLISTS Press and hold for 3 seconds. Your speaker will play the playlists you set. TAP ONCE TO PAUSE / PLAY When music is streaming on the speaker, tap once to pause/play the music. DOUBLE TAP TO SKIP When music is streaming on the speaker, tap twice on the button to skip the song. LONG PRESS AGAIN TO SKIP PLAYLISTS Long press again to skip the current playlist. Alarm: Don't miss an important appointment. You can set your alarm to go off daily or just once and play the music you choose. Alarms and Alexa We are focusing on improving and streamlining our more actively used features in the app for a better overall user experience. Therefore, with the release of our newly designed app, we decided to retire the following features: Alexa "Tap-to-Talk" (Android) PartyUp out-of-the-box To enable your speaker for PartyUp, please do the following: Exit pairing mode by either pairing to a source device or by long pressing (holding for 3 seconds) the Bluetooth button on the speaker. After exiting pairing mode, your speaker should appear as an available speaker on the PartyUp screen. Do I need to clean my speaker after using it in or around water? Always thoroughly rinse and dry your speaker, micro-USB port and charging ring with fresh water after using it in a swimming pool or the ocean. While the speaker is waterproof, the chemicals and salt in your pool or the ocean can damage the waterproof seals over time if not rinsed off after use. Are my speakers waterproof? Your speaker is rated IP67. This means it can survive immersion in 1 meter or 3.3 feet for up to 30 minutes. How do I update the software on my ULTIMATE EARS BOOM 3? Your ULTIMATE EARS speaker gets better all the time through regular, over-the-air updates. These updates are quick and easy and can be wirelessly downloaded through your ULTIMATE EARS speaker app. To get started, connect your ULTIMATE EARS speaker to your smart device, open the app for your ULTIMATE EARS speaker, and tap on "More" to see if there are updates available. If there are, just tap to begin the update and the app will take care of the rest. While it is the quickest and easiest to update over-the-air with the app for your ULTIMATE EARS speaker, if you can't update using the app or you simply prefer to use an old-school desktop updater, we've still got you covered. Click on the Mac or Windows download link below to download the update utility. After you download the app, run it and follow the on-screen instructions. You'll need to connect your ULTIMATE EARS BOOM 3 to your computer to complete the update. REQUIREMENTS: This update supports Windows 7 and above, Mac OS X (10.8.x) and above. MAC OS X UPDATE WINDOWS UPDATE
